OFFENSE IN TUNISIA RESUMED BY ALLIES

Meandering Along the Main Stem

By WASH FAYETTE
How many of you ever ate lentils? Well, I'm not surprised that only a few hands went up on that one. You see lentils are one of the main foods in southern Europe, Egypt and the Orient, but their use in this part of America has not become general because so few persons are aware of the deliciousness of the lentils, or the fact that they have unusual food value. Lentils are a flat seed less than one-fourth inch across and glass lens were named after lentils by reason of their shape. There are numerous varieties and all are of high food value. When the public generally becomes aware of the food value of the seeds their use will grow rapidly. One evening this week we had a meatless dinner, baked lentils taking the place of meat. With the lentils we had green beans, fresh garden salad (shallots, radishes, lettuce, etc.) whole wheat bread, butter and graham pudding with butter-sorghum sauce, which made a perfect dinner. Let me give you a little tip on lentils. They contain about three times as much iron as beans and peas, and the following other salts: Phosphorus, 12; potassium, 12.3; sodium, 4.62 calcium, 2.18; magnesium, .81; chlorine, 1.61. Try them. You might like them, particularly if they are seasoned with olive oil or bacon drippings. Few persons in this part of Ohio have given as much blood toward building up the "blood bank" to help save lives of wounded soldiers, as Mrs. Senath Thompson, well known in this city and community, who has given three pints of blood and plans to give the fourth pint within a short time. Huge quantities of blood plasma are being called for by the Red Cross and stations have been set up at various points for obtaining the blood. Mrs. Thompson considers it a patriotic duty to help in this vital phase of life-saving among the wounded soldiers. When I talked with her yesterday about donating blood toward the "blood bank" she declared that the ordeal was not painful, and that she had suffered no ill effects of giving three pints of blood, and was ready to give the fourth as soon as possible. The D.A.R. in this city, of which Mrs. Thompson is a member, receives credit for the blood donation. I understand a station for blood giving will be set up in Fayette County in the near future, and if so I know the response on the part of patriotic men and women will be immediate and on a large scale.

INDO-CHINA NATIVES RECRUITED BY JAPS

CHUNKING, Dec. 10—(AP)—A Chinese military spokesman charged today that Japan was building a native army of 150,000 men in French Indo-China with the cooperation of the Vichy French governor-general, Rear Admiral Jean Decoux. Trained and commanded by Japanese officers, the Indo-China native force might be employed by the enemy in a campaign against China's vital "back door" province, Yunnan, the spokesman indicated.

Allies Capture Gona in New Guinea

TRAP TIGHTENED ON JAPS CAUGHT IN BUNA AREA

**Attacking Jungle Fighters
Directed in Field by Gen.
Douglas MacArthur**

YANKS WIN AIR BATTLE

**No Further Reports on Jap
Flotilla of Destroyers
Driven Off with Losses**

MELBOURNE, Dec. 10—(AP)—Complete occupation of the Gona area of New Guinea by Allied forces directed in the field by Gen. Douglas MacArthur himself was announced today.

The Japanese thus lost the northern anchor of their stubbornly-defended but ever-narrowing beachhead in Papua, a foothold already cut into segments by Australian and American jungle fighters.

Official reports showed that American forces striking at the lower end of the salient were making progress against defenses of the Buna village sector and a Japanese air field.

Bitter fighting raged for possession of the air field, advances from the front said. Allied detachments were entrenched in two places at one end of the landing strip and Japanese held the other. U. S. and Australian air forces cooperated in heavy machine-gunning and bombing attacks upon the enemy positions.

The narrow zone between the air field and the sea coast was battered with Allied explosives yesterday.

Prime Minister John Curtin made the first announcement of the Gona conquest in the midst of a war review before the House of Representatives in Canberra, the federal capital.

This victory news came 16 days after an Allied headquarters communique had announced the original Australian entry into Gona, testifying to the resistance put up by the Japanese.

Jap's Caught at Buna
Gona's fall left the Japanese pinned down in a narrow strip of coast centering on the Buna area, some 12 miles to the south.

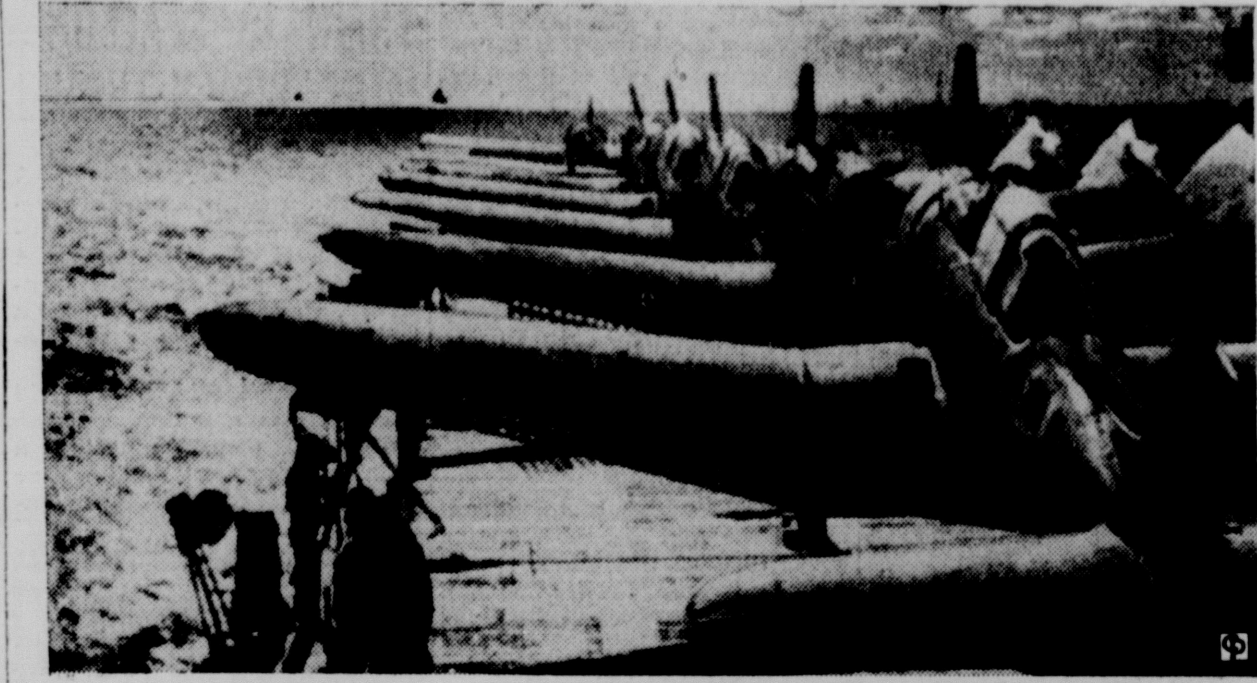

The Japanese first landed at Gona on July 22 and from the Gona-Buna beachhead started their invasion drive which carried across the Owen Stanley Mountains to within 32 miles of Port Moresby, Allied base, before they were halted.

Earlier today the regular communique from Allied headquarters in Australia announced that Allied troops had thwarted the Japanese in an attempt to break out of the Gona trap under cover of darkness, killing 95 of the enemy and capturing four. Eighteen more were killed and three captured in another clash a short time later. More than 400 Japanese had been reported slain in this area in recent weeks.

The same bulletin reported that Allied forces had gained

NEXT CONGRESS TO FEEL POWER OF FARM BLOC

**Vermont Senator Points Out
That Effects of Election
Already Noticable**

WASHINGTON, Dec. 10—(AP)—Administration price fixers, Senator Aiken (R-Vt.) intimated today, are beginning to make amorous advances toward the farm bloc.

Initial passes, he told reporters, amount to little more than conventional coquetry—a gift here, a higher ceiling there—but he said they bespeak knowledge that the new year will bring "a farmers' congress."

Aiken, a leading member of the Senate farm group, said there was evidence of attempts to stem "a growing farm revolt" through an appeasement program designed to win favor with the new congress and its greatly reduced Democratic majority.

"The farmers will have the votes of two-thirds of the next Senate," Aiken said. "I have noticed a tendency on the part of the executive agencies to take cognizance of the election results."

"They know if some of the injustices are corrected, the new congress will correct them and deprive officials of some of their present powers in doing so."

GLACIER AUTHORITY IS KILLED IN ARCTIC

CINCINNATI, Dec. 10—(AP)—Death, in a far outpost of the Arctic, has ended the career of First Lieut. Max Harrison Demorest, 32, one of the nation's outstanding authorities on glaciers. This was disclosed today by his widow, Mrs. Rebecca Humphreys Demorest, 31, who herself played a major role in the research which brought him fame. Mrs. Demorest said she received details of her husband's death from the War Department but that they could not be publicly revealed.

Top photo shows Navy warplanes on the flight deck of an American aircraft carrier as the great vessel steamed toward North Africa, part of the huge armada which made invasion of that continent possible. In foreground are five SBD's (Douglas scout bombers). Note other war vessels along the horizon line.

Bottom photo—Mechanized warfare means little at the moment to these American doughboys plodding on their own two feet, carrying full packs, as they ford a turbulent stream in a New Guinea jungle. The native porters bringing up the rear makes up a scene that resembles a pre-war African safari.

Military Recognition Sought for Farm Boys

COLUMBUS, Dec. 10—(AP)—Ohio farm and employment leaders today considered a proposal that young members of the nation's agricultural army receive "military recognition."

Consideration was given to the advisability of such a plan, the conferees asserted, so that "boys who remain on the farm will not suffer by comparison with boys in the armed services or lose prestige and preferment after the war is over."

The author of the proposal was not announced and the group made no definite recommendations regarding it. A spokesman said, however, that one of the conferees suggested boys on the farm "are doing their patriotic duty the same as soldiers and should be given the same post-war consideration on pensions and civil service preference as men in the armed forces."

BULLS ARE BULLISH ON CHICAGO MARKET

**Stockyards Demands Go Up
For Meat for Canning**

CHICAGO, Dec. 10—(AP)—Bulls were bullish at the Chicago Stockyards yesterday as prices were bid up to \$13 a hundred pounds, the highest on records that date back to Civil War days.

The demand for bulls, which supply canned meat for lend-lease buying agencies, featured cattle trading and prices were up 10 to 15 cents.

With some sausage plants almost forced out of business by the meat scarcity, the animals suitable for processing as sausage sold under lively competition.

LIQUOR RATIONING LOOMS
COLUMBUS, Dec. 10—(AP)—Liquor Director Jacob B. Taylor said today that insofar as he knew there was no law in Ohio that would prevent establishment of an "effective" rationing of liquor in Ohio.

ALLIED HEADQUARTERS IN NORTH AFRICA, Dec. 10—(AP)—Lieut. Charles E. Earnhart of Lebanon, O., crashed in enemy territory after damaging four German aircraft, but escaped while Nazis strafed his damaged plane, the Twelfth U. S. Air Force reported today.

A spokesman said the officer shot the Nazi craft before his own P-38 was hit and forced down, adding: "As soon as his plane struck

the earth, Earnhart jumped out. The Germans immediately strafed his plane, but he ran back, got his jacket which had been riddled by bullets, made his way through Allied lines and reported at the field where he had been believed missing."

OHIOAN IN TANK FIGHT
AN ADVANCED HOSPITAL
BASE IN NORTH AFRICA, Dec. 6—(Delayed)—(AP)—A young technician gunner from Akron, Ohio, recuperating here from battle wounds, gave a thrilling account today of how 17 American light tanks surprised a German-held airport near Tebourba and shot-up 39 planes on the ground.

Typical of other examples cited by wounded men returned from the front, the Akron gunner's story shows how American tanks are coping with enemy air forces in fast-moving action. It follows: "We came up through a mountain pass after taking three small towns, and caught the Jerries on the airfield completely by

ARMY SHAKE-UP BY NAZIS BARED

**Young Infantry General,
Skilled in Tank Warfare,
Made Chief of Staff**

BERLIN (From German Broadcasts), Dec. 10—(AP)—The Berlin radio broadcast a transoceanic agency dispatch today which said that "for the first time the public has learned that Infantry General Zeitler is chief of the General Staff of the army."

(The Nazi regime apparently took this unusual means of making the first authorized announcement of an important change in the German high command, reports of which have been reaching the outside but never with Berlin's confirmation.)

(The post given Zeitler formerly was held by General Franz Halder, who has been mentioned as one of several Army leaders who are believed to have fallen under Hitler's displeasure and been marked for a "purge.")

General Zeitler, a comparative unknown among Nazi generals and apparently a newcomer to the top ranks of Hitler's war chiefs, is believed to be an expert in armored warfare.

A Stockholm dispatch to the London News Chronicle reported last October 28 that Hitler had appointed him to succeed General Franz Halder in another of the Fuehrer's periodic military shake-ups.

General Zeitler is not listed in available German reference books.

The Stockholm dispatch, however, described him as still in his 40's and said he had risen rapidly from the rank of colonel, which he held when he was appointed chief of staff of Field Marshal Ewald von Kleist's first Panzer Army.

Yanks Still Fighting On Philippine Islands

NEW YORK, Dec. 10—(AP)—The Vichy radio broadcast today a dispatch datelined Tokyo reporting that certain of the Philippine Islands still were "held by Americans" and that Japanese Marines had been landed there to end resistance.

The dispatch said Japanese naval headquarters had announced this action, adding that "violent fighting is now in progress."

The veteran British First Army was reported today to have weathered the crisis of German counterattacks on the Tunisian front and overcome its earlier deficiency of air strength, as reserves streamed forward for a renewal of the British and American onslaught.

Reuters quoted the Morocco radio as saying that the attack already was on.

It said that the Allied forces had "resumed offensive operations in the Tebourba-Mateur sector" at the approaches to Bizerte and Tunis. There was no immediate confirmation from other sources.

Reds Drive Nazis Back
On the Russian front, the Red Army sent white-clad ski troops and white-painted tanks into its attacks west of Moscow, and reported driving the Germans again into retreat.

The Russians said the attacks penetrated seven miles deeper into German lines near Veleiki Luki, 90 miles from the Latvian frontier, and recaptured 13 settlements. The Germans also were reported driven from the cover of a forest west of Rzhev.

The Russian counterattack at Stalingrad entered its fourth week with the Red Army still holding the offensive, although no important new gains were reported.

Crisis Looms in Tunisia
In Tunisia both the Allied and Axis armies were reported getting set for the crucial battle that may explode at any moment.

Advices from the front last night said the weather had been unfavorable for large-scale aerial activity. The Allies apparently made use of the lull to build air strength for the next phase of the fight.

Reuters reported from North Africa that British and American aerial reinforcements were arriving constantly at the front.

The Cairo communique spoke of considerable aerial activity over the Libyan front for the second consecutive day, but of the land action it reported only:

No Rest For Rommel
"Continuing their patrol and artillery activity, our forces are allowing the enemy no rest in the El Agheila area."

For the second time in two days the communique reported an attack by Allied two-engine fighters on German transport planes flying the supply and reinforcement route between Sicily and Tunisia. Two transports were reported shot down and several others damaged. Presumably the fighters are based on Malta.

The Italian high command reported a thrust by Allied armored forces west of Tebourba, on the Tunisian front, but said the attack had been repulsed. The Germans also reported an Allied thrust, and located it as south-west of Tebourba.

Russians Advance

The Germans said Russian forces had broken into their lines between the Don and Volga rivers in the Stalingrad sector, but reported that this force had been wiped out. They claimed 104 Russian tanks destroyed in four days.

The Berlin communique said German counterattacks pushed the Russians back in some parts of the Don Bend battlefield. It reported that a German offensive was continuing successfully on the Kalinin-Toropets flank of the Red Army's thrust toward Veleiki Luki, northwest of Moscow.

Plans for Fair Next Summer on Firmer Ground

THE WAR TODAY

By DEWITT MACKENZIE

WITH THE BRITISH EIGHTH ARMY IN LIBYA, Dec. 10—As we draw closer to the moment when the great battle will be joined at El Aghella it is increasingly apparent that Allied fortunes rest in a major degree upon the personality and skill of one man, Gen. Sir Bernard Montgomery, commander of the British Eighth Army.

In the minds of thousands of young fighting men who swarm the desert, the name of Montgomery has become synonymous with success.

Because Montgomery does hold so much of our destiny in his own hands I made a special effort to find him and I finally ran him to earth after a long, hard chase of several days back and forth across the fighting zone.

Montgomery was in his little house on wheels when I tramped up to his front and only door.

A kindly faced, grey-haired man shook hands cordially and waved me to a chair. He smiled when I told him I had come to look him over and see what sort of a chap he was and we fell to chatting.

"Is everything well with us as we come up for battle, sir?" I asked him.

The general nodded and then he said: "Things go well. We shall not fail at El Aghella, though there may be a hard battle. The Germans will fight."

"I told my men at the beginning of the campaign that our job was to drive the Boche out of Africa," he said. "We shall do that. There is no alternative. There is no question of anything else."

The general's eyes twinkled and he laughed when I told him that some of the men were betting the combined Allied forces would have Christmas dinner in Tripoli.

It was evident that the report pleased him.

He didn't answer me directly about the Yuletide dinner, but did give a far better reply.

"Morale is the thing," he declared, and his voice vibrated. "Morale is the thing."

"You can do anything with an army if its morale is high. Your troops must be in that frame of mind where they want to fight, where they're anxious to meet the enemy in battle."

"Morale depends on success. Give the troops success and their morale is high."

"The morale of our men is high. They want to fight."

"This means much, for warfare is hard in this desert where men may go without bathing for six months because of the scarcity of water. There are many trials. One of these is the lonely darkness of the desert under the silent expanse of night far from home and loved ones. But the morale of the men is high."

I asked the general how long he thought the war would last.

"I believe it is likely to be long," he replied.

"The only way to win is to defeat the Germans on the battlefield."

"The greatest mistake we can make is to fail to recognize this and to underestimate the enemy's strength."

"The German is a good soldier and will fight, though I believe it is true that once you get him down he cracks up. But we must smash him and do it on the battlefield with armies."

"A battle," observed the general at another point in the conversation, "is a contest between two men—the commanders—to see who can outwit the other."

He turned to a life-size photo of the head and shoulders of a striking looking soldier.

"That's Rommel," he remarked and added with a smile, "I captured that."

"What do you think of him?" I asked.

"He's a grand soldier," replied Montgomery, "but we shall beat him."

"You're confident—your own morale is high," I said.

He nodded and again looked me squarely in the face. Montgomery believes in himself. No doubt about that.

BRIGHTER HUES PUT ON FUTURE ALL OVER STATE

Agricultural - Entertainment Extravaganza Viewed as Aid to War Effort

Plans for holding Fayette County's annual Fair next summer today admittedly were on much firmer ground than they were last Monday night when the board, at its regular organization meeting, crossed its collective fingers, decided to go ahead and hope for the best.

This was the reaction of individual members of the board to the green light that was turned on for independent and county fairs all over the state by the executive committee of the Ohio Fair Managers' Association, meeting in special session in Columbus Tuesday.

While it will be a full month before the board gets together again to develop the broad out lines of the present somewhat tentative plans for next year's event, its members are taking a more optimistic view of the future already and, without exception, those who commended on the executive committee's action expressed the belief that the board could go ahead with more confidence now.

However, there was none who did not anticipate some major changes in the general fair program. First of all, as Frank E. Ellis, the new secretary, pointed out, the Fair next summer will have to be fitted to a wartime pattern and to conform to the many changes in the wartime mode of life. He also made it plain that, under no circumstances, would the Fair be permitted to interfere with the war effort.

One of the chief concerns of the board in mapping its plans is gasoline rationing. Just what effect this will have remains conjectural in the minds of the members of the board, but they feel that the Fair can and will be arranged to meet the situation.

There was not so much fear of travel curtailment cutting into the attendance and there was a feeling that it might affect some movement of concessions, larger out-of-county exhibits and midway attractions. However, it was pointed out that Washington C. H. is in the heart of a comparatively densely populated section where county seats are rarely more than 30 miles apart. In this connection, the suggestion was made that it might be that some fair dates might eventually be rearranged as to form a circuit for the exhibitors and carnival features to cut their backtracking and reduce their mileage.

That, however, admittedly was pure speculation which would find the answer, if at all, at the annual Fair Managers Association meeting in Columbus in January.

But, it was pointed out that inasmuch as the Fayette County Fair has been the first in the state for the past several years, any date changing or rescheduling would have little effect on it. Rather, the others would be arranged from this as the starting point.

Members of the Fayette County Fair Board seconded that stand taken by the association's executive committee in designating fairs in general as definite contributors to the war effort as morale builders and farm production stimulants.

Last spring, just as preparations for the Fair here were moving into the final stages, the Office of Defense Transportation turned

thumbs down on all such gatherings as a rubber conservation measure. Most of the commitments had been made by that time for the Fair here; so, after long and careful deliberation and much study, the board decided to go ahead. And, last year's Fair was considered a stand-out, both from the point of view of program and attendance. Fifty of the state's 92 fairs were held on schedule and 42 were cancelled last year. Reports on attendance showed that early fears along this line were without foundation.

Secretary Ellis said that contracts for next summer's Fayette County Fair would contain a clause relieving the board of any financial responsibility in case the war emergency or government orders lead to cancellation. This, he asserted, was done not because any anti-edicts were anticipated but rather as a measure of protection against such a situation as the board faced last year.

CENSORSHIP OF MAIL TO ALASKA OPPOSED

Controversy Breaks Out Into Open in Capital

WASHINGTON, Dec. 10.—(AP)—A controversy over the interception of territorial mail appeared likely today to stall action on an administration bill to censor communications between the United States, its territories and possessions and between the territories and possessions themselves. Senator Norris (Ind., Neb.) expressed opposition to censorship of mail to and from Alaska, told reporters he did not believe the Senate Judiciary committee, of which he is a member, would act on the bill in time for final consideration before the 77th Congress adjourns on January 2.

RUSSELL LININGER CLAIMED BY DEATH

Dies of Heart Attack at Early Hour Thursday

Russell Lininger 63, for a number of years employed at the Sunshine Feed Store, but who had spent most of his life engaged in farming, died in Dr. Don C. Gaskins office Thursday at 2:30 A. M. of a heart attack.

He had been in failing health for sometime.

Mr. Lininger was born and reared in the eastern part of the county, in the Johnson's Crossing community, and until a number of years ago had been engaged in farming.

He is survived by two sisters, Mrs. C. B. Cessler, 124 W. Temple Street, this city, and Mrs. Mary Noble, of Chillicothe.

Three brothers, Ernest Lininger, Charles and Jess Lininger, of New Holland, survive.

He also leaves two stepdaughters, Mrs. Paul Graves of Dayton and Mrs. Oscar Lowande, of Glendale, Cal.

Friends may call at the home of his sister, Mrs. Cessler, after Friday noon.

His body will be removed to the Kirkpatrick and Son Funeral Home in New Holland, Sunday morning, and funeral services will be held at the Funeral Home Sunday at 1 P. M., followed by burial in the New Holland Cemetery.

Rev. V. B. Stump will be in charge of the services.

JAMES NEWLAND DIES AT HOME IN REESVILLE

Funeral services for James Manford Newland, 73, who died at his home in Reesville Wednesday afternoon, will be held at the Littleton Funeral Home in Sabina at 2 o'clock Friday afternoon and interment will be in the Leesecreek Cemetery.

Mr. Newland was one of the prominent residents of the community where he was a miller for 40 years and later a member of the highway department personnel for 15 years before his retirement.

He is survived by three sons, Ray of Melvin, Everett of Memphis (Clinton County) and James of Chillicothe, and two daughters, Miss Pauline and Mrs. Ruth Williamson, both of Reesville. Two sisters, Mrs. Phoebe Rodgers and Miss Nettie Newland, live in Springfield. He also leaves five grandchildren.

Friends may call at the Reesville home until 11:30 o'clock Friday morning.

OFFENSE IN TUNISIA RESUMED BY ALLIES AS REDS DRIVE NAZIS BACK

(Continued from Page One)

gled Turin, apparently striving to deal the death stroke to the once great Italian industrial city on the River Po.

The Italian high command admitted the raid and said "on the whole damage was great."

Many buildings were hit and numerous fires were started, the communiqué said.

The number of victims from the preceding raid (Tuesday night's heavy attack by the RAF) are 75 dead and 112 wounded.

The Air Ministry said that three bombers failed to complete the round trip from Britain across the Alps, but said "a strong force" participated—suggesting 200 or 300 planes.

Despite the smoke pall over Turin, the bombardiers could pick out their objectives, the Air Ministry said.

A Reuters dispatch said watchers at Ticino, Switzerland, 90 miles away, saw lightning like flashes on the horizon and heard the thunder of intermittent explosions, apparently from the super bombs.

Turin, Royal arsenal city, had been heaped with destruction and fire only the night before and the return last night for the sixth raid in less than a month testified to the RAF's determination to smash Italian industry in one phase of the effort to knock Italy from the war.

Observers on the southeast coast said the planes streamed across the English Channel for 90 minutes last night and were subjected to heavy anti-aircraft fire from German batteries on the French coast upon their return

this morning from the roundtrip crossing of the Alps.

Air alarms were sounded in Swiss centers and the Swiss telegraph agency said that the Swiss minister in London had been instructed to make a "very firm" protest against RAF flights over the nation.

Four-ton "block busters" were among the incendiary and explosive torrent loosed on the once great industrial city on the River Po. The raid, the British Air Ministry said, lasted an hour.

A report of British commando-type operations on the west coast of France near the big submarine base at Bordeaux, came from the German high command.

It said, without immediate explanation, that a "small British sabotage troops" had been discovered by the Germans Tuesday at the mouth of the River Grande, and had been "wiped out in an engagement."

TRAIN IS SEALED IN FRENCH TUNNEL

LONDON, Dec. 10.—(AP)—A mosquito bomber, shuttling between the entrances of a railroad tunnel 40 miles northwest of Paris in a dusk attack yesterday, apparently sealed a train inside, the air ministry said today.

The flier, it said, neatly laid one bomb at a mouth of the tunnel and then, noting that a train was entering from the other side, bombed that entrance also.

SCHOOL ESSAYS MUST BE READY BY DECEMBER 11

Double-Barred Cross Day To Be Observed in The Schools

Friday has been designated in Ohio as Double-Barred Cross School Day. In Fayette County, the same date has been set as the deadline for submitting essays in the contest sponsored this year by the Fayette County Christmas Seal Committee on the general theme, "The Christmas Seal at Work."

In observing Double-Barred Cross School Day throughout Fayette County, each pupil will be given a small red double-barred cross pin. During the day, pupils will be given an opportunity to make a voluntary contribution of any amount to the Christmas Seal Sale.

"One main purpose of holding the Double-Barred Cross School Day is to acquaint the pupils with the work of the tuberculosis association as a community agency which protects their health," W. J. Hilly, superintendent of Fayette County schools said.

A. B. Murray, superintendent of Washington C. H. schools, urges all parents and pupils to take an active part in the Christmas Seal campaign. He says: "The Double-Barred Cross School Day which adults and school children observe annually to aid in stamping out tuberculosis, is well worth while. School administrators are unanimous in their praise of the use of Christmas Seals. They are a reminder that those who are unfortunate can be helped to good health and that Christmas Seal money also does a world of good in the prevention and control of tuberculosis."

"I hope that every person will contribute something to this movement this year."

The double-barred cross, symbol of the world-wide campaign against tuberculosis, featured this year as usual on the Christmas Seal, has a history closely interwoven with crusades and wars carried on in the name of freedom. Rev. George B. Parkin, Seal Sale campaign chairman, said:

The tuberculosis double-barred cross is an adaptation of the famous Lorraine Cross, once familiar throughout Europe as an emblem of one of the great crusades led by Godefroy de Bouillon, Duke of Lorraine.

The most recent use of the double-barred cross is its adoption by the 79th Division, U. S. Army, as the divisional insignia. The use of the cross follows the tradition of the old 79th of World War I, which was reorganized as the present division now stationed at Camp Blanding, Fla.

Another use of the double-barred cross in World War II, according to Rev. Parkin, was its adoption by the Free French Forces. He told of correspondence from Medical Service, Free French Forces, with the National Tuberculosis Association and with the British Tuberculosis Association, concerning the adoption of the cross by the Free French Forces, in which he wrote:

"It (the fight against tuberculosis) is a work of peace, and, unhappily, ours is a work of war until we have achieved our task... Crusaders wearing Godefroy de Bouillon's double cross were fighting for an ideal of peace and concord and our aim is the same after many centuries."

"When peace will come, we feel that all of us would like to work under your banner of good-will and fight with you one of the main enemies of mankind: Tuberculosis."

FLAKO PIE CRUST

NO UNCERTAINTY. There's no more need to wonder if your pie crusts will turn out just right—not if you use Flako. Flako assures the same light and flaky pie crusts—top and bottom—at every baking because the ingredients are precision-mixed. You simply add water, roll out and put in the oven. No measuring or sifting. No guesswork, therefore no uncertainty about results. Contains the same fine quality ingredients you use.

FLAKORN CORN MUFFIN MIX

No uncertainty, either, when you make corn muffins this modern way.

Health

For Those Suffering From RHEUMATISM CONSTIPATION WEAK KIDNEYS For Better Health!

MINERALS and VITAMINS are considered the very best health remedies today. They are so widely acclaimed, that people look at them as a "God-sent" gift. Books have been written about them. The Government encourages their use. Professors in colleges praise them sky high. Bakers now enrich their flour with Minerals and advertise it. Health lectures herald the good news about them. In schools, in health institutions, in the press, in churches, the radio, everywhere, the cry is: MINERALS! MINERALS!

MINERALS are important to keep and regain health. The warning nations bolster the health of their armed forces with minerals. The Medical Profession—now as never before—is stressing the importance of Minerals. We are told that "WE ARE WHAT WE EAT!" Foods lacking in Minerals are often the cause of many ailments, such as: Decaying teeth, falling eyesight, Nervous tension, Constipation, Gas, Toxins, Bloating, Kidney and Bladder trouble, Frequent colds, Bad breath, general run-down condition and other disorders.

THE CURATIVE properties of Minerals is not a new discovery. In ancient Greece and Rome, in China and India, for thousands of years people knew the curative wonders of Minerals. In America we have the famous Mineral Springs in Georgia, patented by thousands year after year. In France they have the Louvre and Aix Le Bains, and in Greece, the very famous Springs of Thronion where, according to the legend, Hercules, the God of Strength and Youth, drank and bathed to rejuvenate; to be forever young.

USE BIO-MINERAL. A serious chronic condition. Constipation, piles, colitis, appendicitis, other diseases may be developed. Beware! USE BIO-MINERAL.

Drugless Health! BIO-MINERAL is a combination of vitally important Minerals blended by Nature for those suffering the agony of Rheumatism, Arthritis, Stomach and Kidney ailments. It comes from the depths of the earth—Nature's laboratory. IS NOT a Mineral Oil, physic or harmful drug. Contains NO alcohol—NO drugs—NO opiates—NO preservatives—NO oil. NOT A SINGLE habit forming ingredient. ONLY Natural Life-Giving Minerals—these same minerals of the world's best springs in highly concentrated liquid form. ORDINARY cathartics are habit forming and never cure constipation. They force out the foods and digestive juices from your stomach and do not correct the cause of your trouble. BIO-MINERAL will not interfere with the natural foods in your stomach. It reaches down to the root—to the walls of your intestines, neutralizing, throwing away abnormal waste material, gas, toxins and bloating. Not like oils, physics and cathartics do... but in a Natural, harmless, painless way—doing a real "house-cleaning."

Try it at Our Expense IF YOU cannot go to the Mineral Springs, common sense will advise you to try BIO-MINERAL. See the wonderful results 3 days after you start taking it. Regardless of how long you have been suffering and how many medicines and drugs you tried before and did not help you, BIO-MINERAL may be the remedy you needed and were looking for. Try it at our expense!

REMEMBER—It is your Health that counts—not your wealth, age, or looks! If you want better health, TRY BIO-MINERAL. It may PROVE wonders for you. It may UPROOT and drive your ailments OUT of your system. Make you feel better, eat better, sleep better, work better, really enjoy Life, and eat anything you wish—even things you like and could not eat before. Try it today, it is really marvelous.

IMPORTANT: Use common sense. As long as this product is absolutely harmless, and it is sold on a MONEY-BACK GUARANTEE, there is no reason in the world for not giving it a trial. To pass it up, you may miss the best opportunity to better your health.

Trio of Hostesses Fete Tuesday Kensington Club With Luncheon Party

A Christmas party of beautiful appointments and charming hostesses left members of the Tuesday Kensington Club indebted to Mrs. H. O. Simons, Mrs. Fred D. Woodard and Mrs. Clinton D. Young for a delightful afternoon, Wednesday.

The guests were assembled at the lovely Simons home at one o'clock. Covers were laid for twelve at the dining table, covered with a beautiful white cloth and centered with two Christmas poinsettias, around which spruce interspersed with Christmas balls were most decorative.

The luncheon hour was prolonged in its gastronomic pleasure and in the congeniality of visiting, with the three very gracious hostesses contributing most delightful pleasures.

The mantel of the fireplace in the handsome living room, was banked in cedar, with brilliant Christmas bells and blue lighted candles, arranged most artistically.

During the afternoon, a short

Home Ec Dept. Presents Program At Browning

Members and guests filled the Federated Club Room in the Washington Hotel Tuesday evening, for the Browning Club program, presented by the Home Economics Department. Mrs. Edith Forsythe, chairman. Preceding the program, Mrs. J. J. Kelley, president, conducted a brief business session. Mrs. Nona Feagans announced that the doll display would be held on next Tuesday evening.

Mrs. Forsythe presented Mrs. Blodwin Melvin who's subject was "The Mediterranean Checker-board", which was most interesting and timely. She brought out the facts that from earliest times this portion of the earth has been the scene of many battles. She spoke of the cultures of the different countries as each rose to power, of the influence of the early Greeks upon architecture, of the contributions of such men as Plato and Socrates to education and of the importance of such places as Sicily and Malta, then, as in the present day. Her paper provoked much discussion and was greatly appreciated.

The second paper "Cordell Hull and the U. S. Diplomacy" was capably written and presented by Mrs. Maud Rankin. "Cordell Hull was the third son of William and Elizabeth Riley Hull, there being five sons in the family. He was a 'bookish' boy and haunted second hand stores until he found a law book he could afford to buy. He attended Normal School at Bowling Green, Ky., National Normal University at Lebanon, and took one year of law at the University of Tennessee. His father then fitted him out with a little office where he commenced to 'read law'. He was elected, at the age of 21, to the Tennessee Legislature. In 1898 he went to war and became captain of the 4th Tennessee Volunteers. After the war, he entered politics and at the present time, is probably best known for his historic trip to Montevideo in the interest of his 'Good Neighbor Policy' and for his calm influence and insight into international affairs."

St. Andrews Guild

Mrs. Richard Ramsey was hostess to the members of St. Andrews Guild Wednesday afternoon for their regular monthly meeting.

A good attendance met and much was accomplished on the sewing which the ladies are doing at each meeting to fill their missionary box.

Mrs. Ormond S. Dewey added to the number of lovely affairs, launching the approaching Yuletide, a beautifully appointed supper at her home on Market Street.

The large rooms were radiantly enfeet with Christmas decorations, the mantelpiece drawing the admiration of all, with miniature trees and small lighted Santa Claus effectively arranged across it. Candles and Christmas bells were added colorful notes, and the cheer of the open fireplace added to the evening's pleasures.

One large table and two small were perfect in appointments in seating the guests. Their centerpieces were crystal candelabra burning tall blue tapers. A complete crystal service added to the beauties of the supper hour, with the very delicious courses of delightful pleasures.

Bridge was provided during the evening at the close of which the very charming and gracious hostess, whose entertaining is always of perfection, presented trophies to Mrs. H. O. Simons and Mrs. J. J. Kelley. A gift was also given to Mrs. John Babbitt who leaves soon to make her home in Indianapolis.

Mrs. Charles Hire Is Charming Hostess to Club

With all the members present, Mrs. Charles S. Hire entertained a particularly delightful party Wednesday evening for her Tuesday luncheon-bridge club.

Christmas greens, holly and spruce radiated Yuletide cheer, and graced points of vantage in the spacious living room.

Cedar and pine cones were arranged in the center of the table, where tallow Santa Claus cast a soft glow. At each end of the dining table were tall tallow Christmas trees of white, which added to the pretty decoration. The viands were perfectly prepared, and the dinner hour prolonged in the enjoyments.

Tables were congenially arranged in the living room for the bridge game, which progressed enthusiastically during the evening. High score trophies were presented to Mrs. Ralph Lloyd and Mrs. Richard Willis.

Dinner-Bridge Club Met with Mrs. Cockerill

The members of the dinner-bridge club were indebted to Mrs. Herbert Cockerill for an exceptionally beautiful party Wednesday evening, when she took them to the Devins' Party Home for dinner.

Large and beautiful poinsettias flanked by red tapers made an attractive centerpiece for the dining table, where covers for eight were laid. The dinner was of perfectly prepared and served viands. The gay hour around the table was prolonged beyond the usual and afterwards the charming hostess took her guests to her home on Washington Avenue for the progressive contract bridge game.

High scores for the evening were presented to Mrs. Frank Michael and Mrs. Walter Craig.

Mrs. Don Gerber Entertains for Mrs. Wilson

Mrs. Don Gerber, who is making her home with her grandmother, Mrs. W. A. Tharp on Broadway, until Mr. Gerber is assigned to a definite army post, entertained with a very lovely party on Wednesday, complimenting her very close friend, Mrs. Robert P. Wilson, a fall bride.

It was a small affair, to which three tables of guests were invited for a dessert course at half past seven o'clock. The tables were prettily appointed and at each cover were gorgeous red carnations, made in dainty hair adornments. Marking the place of the very lovely honor guest, was a perfectly beautiful corsage of rosebuds, carnations and greenery, in exquisite combination, which was an effective contrast to her chic gown of blue wool.

Bridge was gaily contested, the tables arranged in the attractive

living room where Christmas decorations were admired. The charming hostess extended most delightful pleasures throughout the entire evening, and completed it with the presentation of unusual and most pleasing trophies to Miss Peggy Devins, Mrs. Wilson and Miss Rosemary Burgett.

The guests were: Mrs. Horace Locke, Mrs. Paul E. Pennington, Miss Lorane Kruse, Misses Jayne and Peggy Devins, Miss Rosemary Burgett, Miss Helen Crone, Mrs. Charles Fults, Mrs. Robert Carman, Mrs. Jack Shipley and Miss Jean Woodmansee.

Lovely Party At Parrett Home For Comrades

Mrs. Thomas H. Parrett was a charming and gracious hostess Wednesday evening when she entertained the Comrades of the Second Mile at a lovely Christmas party at her home including a number of guests with the members.

The party convened at six-thirty for a sumptuous and delicious covered dish supper which was served buffet style from the large dining room table, the guests seated at small tables placed intimately about. The dining room was lovely in Christmas decorations with lighted tapers on the buffet casting a soft light over the diners.

Following the supper the group gathered around the lighted Christmas tree in the living room for the usual exchange of gifts, this year held grab bag fashion and provoking much merriment. An hilarious "white elephant sale" was conducted, netting the club a little over eight dollars and evoking great fun among the members. The business session was omitted but the names of the mystery sisters of the past year were revealed. The attractive home was beautifully decorated throughout with Christmas greenery and Georgia mistletoe and was a charming setting for the lovely party.

Mrs. Lloyd Iden and Mrs. Truman Arnold assisted Mrs. Parrett in the hospitalities. Guests included with the club members were Mrs. Elton Elliott, Mrs. Willard Bitzer, Mrs. Carl Gulich, Mrs. John Forsythe, Mrs. G. B. Vance, Mrs. George Pensyl, Mrs. G. W. Naylor, Mrs. Clyde Cramer, Mrs. Hazel Moyer Mrs. Helen Emery, Miss Cassette Larrimer, Miss Patsy Sollars and Miss Joan Arnold.

Party for Mrs. Gerber

A lovely party was held at the Kittyhawk Room of the Biltmore Hotel, in Dayton, Tuesday evening, when the girls in one office at Wright Field, complimented Mrs. Don Gerber (Jane Ramsey) with a dinner and theatre party. Mrs. Gerber has resigned her work to be able to join Mr. Gerber upon the completion of his training course at Ft. Monmouth, N. J. After the elaborate three-course dinner, the party attended the picture, "Springtime in the Rockies." Mrs. Manetta Ramsey, mother of the guest of honor, was included in the very pleasurable evening.

Washington Temple

Washington Temple 380 met for their regular meeting which was preceded by a covered dish luncheon. A very favorable representation of members were present for the luncheon, and remained for the business meeting which was presided over by Mrs. Daisy Sollars, M. E. C.

OLD OVERHEAD STRUCTURE TO BE TORN DOWN

Dangerous Building Over Alley To Be Removed By The City

The old overhead structure across the alley back of the Burke Block on South Fayette Street and the old Music Hall Building fronting on Main Street, is to be removed by the city.

The span was condemned some time ago, and neither owner of the adjacent property claimed it, so to prevent the structure collapsing and possibly crushing someone beneath it as they passed through the alley, City Manager Edwin Ducey has arranged to remove the span.

Mrs. Margaret Edge and P. J. Burke, owners of adjacent buildings connected, have given written consent for removal of the overhead structure and this will be done as soon as possible.

The structure was built across the street at the second floor level of the two buildings, many years ago, when a carriage factory occupied the two buildings, and the runway was constructed so buggies and carriages could be moved from one of the buildings to the other.

The sidewalks are of brick, and the span is about 15 feet wide and some 12 feet in height.

The brick walls as well as the floor are supported by pine timbers, reinforced with steel rods.

It is the only overhead crossing of an alley in the city, and probably has not been used for 25 years.

The connecting runway forms a fire hazard and this will be eliminated when the span is torn out.

POET'S CORNER

IMPRUDENT

"I hitched my wagon to a star,"
As someone told me to;
But later on I found it was
A silly thing to do.

Unheeding of the radiance
That glowed on every side,—
I sought a starry eminence,
My earthly feet to guide.

And in my eagerness to reach
The star so far away,—
I failed to see the things of worth
That all around me lay.

Concentered was my view upon
That distant, shining goal;
And blinded by its garish light,
I could not see life's whole.

I've found it better far to hitch
My wagon closer home,—
Than to the gaudy, glaring light
Of some celestial dome.

WAR IS LIKE THIS IN INVADED GREECE

NEW YORK, Dec. 10.—(P)—How'd you like to have to shell out \$22.40 for a loaf of bread? or \$27 for a dozen eggs? or \$1,500 for a suit formerly worth \$25?

That's how it would be if prices here had come up in proportion to those in Greece, the Greek War Relief Association said yesterday after doing some arithmetic based on Red Cross reports.

Non-Grandmother

One of the top-flight hat designers created one number which is remindful of the days when grandmother always wore shawls. It's a black-and-white plaid, woolen shawl, ties at the top of the head and under the chin. The border which hangs over the shoulders is row upon row of black wool yarn fringe.

Another junior hat that reminds one of days gone by is a stocking cap, with no less than four tassels, mounted on a pill-box base.

The New Hebrides islands in the Pacific have long been jointly administered by the French and British.

Tired Kidneys Often Bring Sleepless Nights

Doctors say your kidneys contain 15 miles of tiny tubes or filters which help to purify the blood and keep you healthy. When they get tired and don't work right in the daytime, many people have to get up at night. Frequent or scanty passages with smarting and burning sometimes shows there is something wrong with your kidneys or bladder. Don't neglect this condition and lose valuable, restful sleep. When disorder of kidney function permits poisonous matter to remain in your blood, it may also cause nagging backache, rheumatic pain, leg pains, loss of pep and energy, swelling, puffiness under the eyes, headaches and dizziness. Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

SEE \$2,800,000 CUT IN INCOME FROM AUTO TAGS

Less Wear and Tear on Highways Also Seen To Meet Loss

Fayette County and Washington C. H. will feel effects of the decrease revenue from sale of auto tags in 1943 and also from loss of tax on gasoline, but it is expected decreased use of the roads and streets will offset, to a large extent, the loss in revenue from the two sources.

An anticipated decline of 10 percent, or about \$2,800,000 in automobile license tax revenue in 1943 was forecast today by Cylon W. Wallace, registrar of motor vehicles, in a report to Hal G. Sours, director of the Ohio Department of Highways.

Sours was told, however, that the total income from sale of license tags in 1942 will exceed the total of 1941 by about \$150,000. A loss of about \$100,000 in passenger car tag income this year was seen but the increased sale of tags for commercial trucks and trailers and farm trucks was expected to more than offset this anticipated loss and leave a small increase in total income compared with 1941.

Director Sours also made public figures showing that a drop of about 36.8 percent, or \$15,981,288, in gasoline tax income is anticipated in 1943.

This loss in tag and gasoline revenues will affect the Department of Highways, the Ohio Highway Patrol and all cities, counties, villages and townships. The revenue is available for maintenance and repair of highways, for administration, for new construction, for highway patrol operation and the hospitalization of indigent persons injured in traffic.

A few weeks ago it had been anticipated that a decline of about \$100,000 in license tax income might be expected this year. A sharp upward swing in tax purchases, however, caused a revision in the estimate.

A few weeks ago it had been anticipated that a decline of about \$100,000 in license tax income might be expected this year. A sharp upward swing in tax purchases, however, caused a revision in the estimate.

Tags are being sold at a rapid rate. In October the total tag sale was 9,000. The November sale also was heavy. Truck operators were responsible for the largest number of tag purchases.

Passenger car gasoline consumption for 1943, it was estimated, will be more than 472,000,000 gallons, and the bus and truck consumption more than 441,000,000 gallons, a total of more than 913,000,000 gallons. At three cents a gallon the tax would produce \$27,417,540, or a decline of 36.8 percent under the 1941 figure.

In addition the survey pointed out the loss to the state from decline in the liquid fuel tax would amount to \$5,327,076. The loss to the United States government in gasoline tax would be \$7,990,614.

SULFA DRUGS SAVING WOUNDED SOLDIERS

SOMEWHERE IN NEW GUINEA, Dec. 10.—(Delayed)—(P)—Doctors working in field hospitals on this front say that no longer do soldiers hope that if they must stop a bullet they can be killed outright.

This report was brought back by Capt. Philip North of Fort Worth, Tex., a young infantry officer attached to this advanced Press Relations Unit.

North explained that the doctors were finding a majority of the wounded saved easily by the use of sulfa drugs.

Sherlock Holmes and 'Moonlight In Havana' Sunday at the State

Sherlock Holmes, master detective, comes out of retirement again, this time to tackle the most formidable problem of his career. Summoned back by pounding war drums, Sherlock's amazing genius is matched against enemy saboteurs in a timely movie adventure titled "Sherlock Holmes and the Voice of Terror." The picture, a action thriller, comes Sunday to the State Theatre.

As second feature, romance, music, laughter and a brand new Hollywood star team are listed as the ingredients calculated to attract special favor for "Moonlight in Havana," coming Sunday to the State Theatre.

QUIZ FOR KIDS!

... and parents, too! Questions and Answers that are extra important today when so much depends on America's eyesight

How many of these children will have good eyesight at twenty? Only three if these children are average! Two college students in five have defective eyesight, and it may be worse as schools speed up wartime education. Proper care during growing years can help ward off eye troubles later.

Which one is headed for trouble? Molly! She's risking eyestrain if she persists in reading on the floor. She may be only getting a tenth as much light as John is getting in the chair. If she sat in another chair, under the light, she could read more comfortably and with less danger of eyestrain!

Alan can't see the writing on the blackboard. Should he quit school, get a front row seat or have his eyes examined? Alan should have his eyes examined right away. If he needs glasses, he doesn't know what he's missing. They'll help him in games and sports, as well as in school.

This girl is getting extra light free. True or false? True! Dust and dirt on bulbs, shades, and reflectors can cut light in half without your realizing what's the matter! By being a good little housekeeper and wiping them clean, Libby is getting extra light for the same electricity!

THE DAYTON POWER AND LIGHT COMPANY

COST IS LESS FOR DOG TAGS IN YEAR 1943

Good Year Is Reported in Dog and Kennel Fund Of County

Here's good news for dog owners in Fayette County. Dog tags cost less for 1943, and they are now on sale.

It all came about because County Dog Warden Loring Harrop did a good piece of work the past year with the result that between 2,600 and 2,700 dogs were licensed, compared with 1850 last year and sheep claims were far down the scale compared with those of last year.

The new price of dog licenses follows: Males \$1.25; a reduction of 25 cents from the past year. Females, \$3.75 compared with \$4.50 last year, and kennels \$12.50 instead of \$15.

Incidentally Barbara Baughn, daughter of County Auditor and Mrs. Roy Baughn, purchased the first license for "Dopey", her large black and white dog.

Last year sheep and animal claims presented were in excess of \$4,000, and receipts from licenses were far below what they should have been, due to no pressure being applied to see that the negligent ones obtained tags for their canines.

There was a big deficit in the dog and kennel fund after the sheep claims had been whittled down to \$3,200 last year, the commissioners declining to allow some of the numerous claims filed.

Now it is announced that the year has been so good, and sheep claims for the year were only \$1400, so it is possible that during the coming year the rates will not only be less, but the county can, for the first time in years, pay the sheep claims as they are presented instead of waiting until the last of the year or carrying them into the following year.

MAN KNOWN HERE MAY BECOME JUDGE

Richard H. Hildebrandt Is in Line for Appointment

Richard H. Hildebrandt of Wilmington who has many friends in Washington C. H. today was being mentioned prominently as a possible successor to Judge Francis M. Hamilton of the first district Court of Appeals. Judge Hamilton died a few days ago.

Hildebrandt was elected to his first term as a state representative two years ago and served until the end of the legislative session in 1941, when he resigned to become secretary of the State Industrial Commission.

Judge Hamilton's term expires February 8, 1947 but it was pointed out that any successor appointed by Governor John W. Bricker would serve only until a new judge is elected in 1944. The first appellate district is composed of Hamilton, Butler, Clermont, Clinton and Warren counties.

Jack and Ann Coming Here

Love comes to Jack Benny in his new Warner Bros. comedy, "George Washington Slept Here" which is coming to the Fayette Theatre Sunday and Monday. The young lady with the leg appeal is Ann Sheridan, who is co-starred with Benny in the film.

ORIENTAL JITTERBUG New Dance Coming

By JEAN MEEGAN

NEW YORK, Dec. 10.—(P)—If a new dance is what this world needs, it's about to get one.

It's a blending of the slow, splendid hand gestures of the Orient with the footwork of our own modern school, and its author is Tei Ko, Maryland-born daughter of a Mongolian father and an English mother.

"If the language of hands of the Orient can be successfully blended with the jumping and leaping of the American technique, I feel it would be perfect art," she says.

Commercially in earnest about the idea, Miss Ko feels that this is the ideal time for such a presentation because "until recently Americans didn't know exactly where Bali or Java or other such remote regions were. Through news from the battlefronts their curiosity about these places has been stimulated."

In appearance, the 27-year-old dances is definitely Oriental, but her accent is pure New York and her tiny apartment is very Greenwich Village.

She has been whipping her dance into shape for American audiences and has found that actually the dances of the east and west are fundamentally the same. "The modern is abstract and symbolic just as the Oriental is. The basic movement of both is calculated to show human impulses."

An artist as well as a dancer, Miss Ko has another project on the fire. She is illustrating a book which her husband, Yuji Ito, is writing on Oriental music and American arrangements.

For ten years Miss Ko trailed through the east, learning her trade from the priests in the temples—the only place where it was available and intact. But the war put a quick end to her

SCRAP OLD FIRE EXTINGUISHERS IF WORN OUT

Fire Chief George Hall Gives Advice About Equipment

"If it won't work, have it repaired. If it can't be repaired, then scrap it," is the advice of Fire Chief George Hall to owners of fire extinguishers.

This advice serves to modify the current salvage campaign publicity which includes fire extinguishers among items to be salvaged. Despite the fact that these fire-fighting devices, unless they are beyond repair, should be carefully conserved, since they perform a vital function in keeping down fires that might hamper or delay the war effort.

"As the manufacture of many kinds of extinguishers is now restricted, everyone who owns an extinguisher should take good care of it for the duration. See if it carries the label of Underwriters' Laboratories. If so, it's an approved extinguisher, and can be relied upon if it has not been damaged or neglected too long.

"Every kind of extinguisher should be recharged or inspected at least once a year. Don't try to solder leaking seams or hammer at dents in the shell, but return a damaged extinguisher to the manufacturer for repair. And another thing, in recharging vaporizing liquid extinguishers—the pump gun type—use only materials supplied by the manufacturer. Substitutes may damage the extinguisher.

To back up his point that fire extinguishers play a strategic role in the war effort, Chief Hall pointed out that up to 90 percent of all fires started in factories and public buildings are put out with fire extinguishers.

esthetic preoccupation and she had to pick up her artistic luggage and streak for the United States.

Among other things, she abandoned a school of the dance she had established in Tokio. But they probably aren't dancing much there now anyway.

12 CONTRACTORS FOR PIPE LINE FROM ILLINOIS

Divisional Headquarters Are
Announced Out of
Washington

Associated Press reports from Washington, D. C. state that Petroleum Administrator Ickes has announced selection of 12 contractors to construct the 857 mile eastward extension of the 24 inch oil pipeline from Norris City, Ill., to the New York-Philadelphia refining areas.

Full-scale operations are planned through the winter, Ickes said, in order to complete the eastward extension which will relay 300,000 barrels of oil daily—by the middle of next summer.

War Emergency Pipelines, Inc., which is supervising construction for the government, has set up these divisional headquarters: Division 1, (Norris City to Mt. Sterling, Ohio), Hamilton, Ohio; Division 2 (Mount

He gave more than 10%

...what about YOU?

...and you're not even being asked to give, but to invest in your own future—and make a handsome profit besides!

**THE STORY OF
SCARSDALE
JACK
of the Flying Tigers**

He had a lot to live for. Ask his father. Or ask the kids who knew him—his Scout troop—or his classmates at Rensselaer Polytechnic.

Ask his widow.

Scarsdale Jack, Squadron Leader John V. Newkirk on the Flying Tigers' roster, blasted 28 Japs out of the sky before they got him.

He gave all a man can give of courage, guts, gallantry, the will to fight . . . and keep on fighting. Not 10% . . . but everything! His life.

You're being asked only to pledge 10% of your income, a dime of each dollar for War Bonds to give all the Scarsdale Jacks in Navy blue and Army O. D. and Marine forest green the planes, machine guns, bombs, bullets, torpedoes, tanks, and ships and every other weapon they need to give the *Herrenvolk*, the "sons of heaven," and the road-company Romans the bellyful of steel they asked for.

These men who are fighting for your homes, your children, your future, your freedom aren't stopping at 10%.

That's all you're asked for—but why stop at 10%—if you can do better?

Now look at the selfish reasons for buying your share of WAR BONDS

War Bonds, first of all, are for winning the war. Without that what future will any of us have? But beyond that there are many advantages that make a 10% pledge add up to solid business sense. You're actually doing yourself a favor by investing that 10%—or more if you can—in War Bonds.

You get back in ten years \$25 for every \$18.75 you put in.

They are the direct obligation of the United States Government.

You can get back every cent you put in after sixty days if you suddenly need money.

You get a handsome interest, 2.9% compounded—1/3 more money back at maturity than you put in.

Inflation is the dreaded threat of every American. It means, simply, that if it comes, your money is worth next to nothing.

Systematic savings in War Bonds by each and every American is one of our major protections against inflation.

Big Ten Won't Open Door Of Varsity to Freshmen

CHICAGO, Dec. 10.—(AP)—The Big Ten's freshman athletes—who hoped this week's conference meetings would give them permission to compete on varsity teams during the winter and spring seasons—instead have received their "stand by" orders, and may go into action any time a serious shortage of athletic manpower develops.

The Western Conference faculty representatives have decided there is no need at this time to use first-year men on varsity teams, but any time this need does develop the control group will be ready to meet and

sanction abandonment of the freshman rule.

An Associated Press survey today disclosed a wealth of top-notch freshman material in the Big Ten—mostly basketball players, swimmers and track men. By the time another grid season rolls around the current freshmen will be sophomores and automatically eligible for the varsity teams.

Cage Scoring Lead Taken By Bee-Gees

(By The Associated Press)
Bowling Green State University's high-scoring basketball team held an early lead today in Ohio's collegiate cage championship race.

The Bee-Gees kicked in 134 points against a pair of opponents in a twin bill at Bowling Green last night to give them a record of four victories and no defeats.

The Bee-Gees crushed Toledo Naval Training School, 64 to 14, and shackled Hillsdale of Michigan, 70 to 38.

Freshman Forward Wyndol Gray of Akron paced the Bee-Gees' nightcap attack with 12 buckets and four free throws for the best outstanding individual performance on last night's cage program involving 10 other Buckeye squads. Gray didn't play in the opener.

Another guy named Gray—Forward Robert Gray of Denison—went on a scoring spree, too, with 21 points as Denison's big Red cagers downed Kenyon College 61 to 44 in a season-opener at Granville.

Forward Gerald Wimbler of Ohio Northern's Polar Bears also tallied 21 as the Bears trounced Bluffton, 83 to 40, at Ada.

The sharp shooting of Forward Dick Lord staked Defiance to a 47-44 decision over visiting Findlay.

The University of Toledo beat Detroit Tech easily 44 to 29. The University of Cincinnati won its second straight, a 42-40 triumph over Georgetown College of Kentucky.

Revenge Sought By Redskins in Game with Bears

WASHINGTON, Dec. 10.—(AP)—You can't tell what'll happen when two tough outfits clash, so don't sell the Washington Redskins short.

That's the attitude of the Redskins, eastern division champions of the National Football League, as they gird themselves to meet the Chicago Bears, western titleholders and defending kings of the pro football world, in the playoff here Sunday.

Coach Ray Flaherty of the Redskins is tired of hearing of that 73-0 shellacking the Washingtons took the last time (1940) they met the Bears in a playoff. He's weary, too, of talk about the Bears being invincible.

"We've got a big, hard-charging line, a swell passer in Sammy Baugh and good running backs in Andy Farkas and Ray Hart, and we've got some pretty fair blocking along with it," Flaherty said.

Ladies' Loop Bowling Race Is Tightened

Ohio State's best freshman prospect is 18-year-old Bill Smith, Hawaiian-born swimmer who dominated the amateur athletic union All-America tank team named this week. Lou (Big Chief) Groza, captain of the state championship Martin's Ferry (O.) high school basketball team last year, is regarded as a standout Buckeye cage candidate.

The faculty representatives not only took the view that the 1943 Big Ten football season would be played but also authorized schools to go one game over the new conference quota of nine contests provided the 10th is with a service team.

Tiger Farm System Is Broken Up

By WATSON SPOELSTRA

DETROIT, Dec. 10.—(AP)—The Detroit Tigers had the sole remaining piece of property from a once extensive farm system up for sale today and from all indications the club was through with chain store baseball for keeps.

General Manager Jack Zeller disclosed that the Tigers would sell next Tuesday their Texas League franchise where in a dozen years of operation Detroit developed Hank Greenberg, Schoolboy Rowe, Barney McCosky and other talent for three American League pennant winners.

Zeller said the Tigers already had liquidated their Piedmont League holdings at Winston-Salem, N. C.

While the Detroit action in part stems from war-time uncertainties in the game. It also means that the Tigers are through with out-right ownership of farm clubs, a principle on which Branch Rickey built the famed chain store system of the St. Louis Cardinals.

Next summer, or after the war if baseball goes out for the duration, the Tigers intend to send out what Minor League talent they have to clubs on a working agreement basis. Detroit now has such affiliations with Buffalo of the International League, and it is wholly possible that relations may be renewed at Beaumont on that basis.

"We believe the future of minor league baseball lies in local ownership," Zeller declared.

Punting Honors Go to Sam Baugh

CHICAGO, Dec. 10.—(AP)—Sammy Baugh of Washington is the National Football League's punting champion for the third consecutive year.

League statistics gave Baugh the edge over Dean McAdams of Brooklyn although the two finished in a tie under the league's rating system. McAdams lost out on the basis of average distance per punt.

Baugh averaged 46.6 yards for 37 punts while McAdams had a 41.3 mark for 52 kicks. They tied for the longest punt of the season, 74 yards.

down one Messerschmitt-109 over Tunis. "He was running away and I simply caught him," the 25-year-old officer explained. "The Germans try to sneak up on us, but run if we chase them. The P-38 is too good for them and in my opinion it's growing better every day. It's pretty nice to see them able to come home on one engine—without which they'd never get home at all." Williams emphasized the point with the account of how another fighter squadron from the same airfield attacked a German airfield and put five JU-52 transports out of commission. Returning home, they encountered nine more in the air and shot down all of them. Ohioans in the crews of the attacking planes were: Sergt. Chester Allen of Zaleski; Corp. Stanley E. Semproch of Cleveland; Lieut. Legrand Burt of Cleveland; Sergt. Earl Taylor of Youngstown; Sergt. John M. Wilcox of Bellecenter.

HONOR FOR OHIOAN

WASHINGTON, Dec. 10.—(AP)—A Marine Corps officer who just before dying killed the Japanese sniper who shot him will be honored posthumously today by the presentation of a Navy Cross by Secretary of Navy Knox. The cross will be handed to the parents of Second Lieutenant George H. Mead, Jr., at ceremonies (4:30 P.M.) in the secretary's office. The parents are Mr. and Mrs. George H. Mead, Sr., of Dayton, Ohio. The 25-year-old officer died in the jungle on Guadalcanal on August 19. The Japanese sniper was found dead only a few feet away. Sergt. James W. Hurlbut, Marine Corps combat correspondent, told of Mead's death—the lieutenant was not identified at the time—in these words: "One of our lieutenants and his runner, a private, were active in reconnaissance work, going well out ahead of scout enemy positions. While they were moving in the open, our observers saw the private shot and killed by a sniper. The lieutenant bent over the private to give aid and was also hit. "Marine Gunner Edward S. Rust, of Detroit, Mich., said he saw the lieutenant although mortally wounded, fire on the Japanese sniper with his pistol. The Japanese found dead a few feet away with two slugs in his body." Mead, born August 3, 1917, at Dayton, attended the Marine Corps Officers' Candidate School and was commissioned last January. He later attended the reserve officers' course at Quantico, Va., before assignment to the Fifth Marines, First Marine Division, Fleet Marine Force, as executive officer.

further ground in their attacks on the Japanese at Buna and that they were continuing to press home their attacks with strong air support.

Allied headquarters also announced that American Flying Fortresses and Liberator bombers had scored a signal victory over a formation of Japanese fighters in a furious duel off the coast of New Britain, shooting down 10 of the enemy planes and damaging four others so badly they probably crashed.

"All our planes returned," the communiqué said.

The air battle developed in conjunction with a heavy Allied bombing assault on the Japanese airfield at Gasmata, New Britain.

There were no further reports concerning the whereabouts of six Japanese destroyers which were driven off earlier in the week in an attempt to land reinforcements in the Buna area.

CATTLE—Strong demand for cows, bulls at higher prices.

GRAIN MARKET NEWS SUMMARY

CHICAGO, Dec. 10.—(AP)—Wheat prices rose more than a cent a bushel to the highest quotations since last May and corn was up as much to top levels in the grain market today.

Good demand for cash grain and a scarcity of supplies whetted buying of futures, especially December contracts which call for delivery of actual grain this month.

Wheat closed 3/4-1 1/2 cents higher than yesterday, December 1.29 1/2, May 1.32 1/2-1.32; corn 1/4-1/2 up, December 87 1/2, May 91 1/2-92; oats 1/4-1/2 up; rye 3/4-1 1/2 higher; soybeans 1 1/2-1 1/4 higher. At one time December rye showed a net overnight advance of as much as 2 1/2 cents.

GASOLINE HIJACKERS REPORTED ON HIGHWAYS

SEYMOUR, IND., Dec. 10--(AP)--The first case of gasoline hijacking since rationing of the fuel became effective in Indiana was reported to state police today.

William B. Spies of Columbus, Ind., said three youths in a small truck bearing New York license plates crowded his car from the road south of here this morning and siphoned the gasoline from his machine into an extra tank on the truck.

Coffee was originally sold by cautious pharmacists "for medicinal purposes only."
